

ETHICS

A high priority standard within Accreditation Canada's Leadership and Service Excellence Standards is that organizations develop and implement an **ethics framework** which defines processes for managing ethical issues, dilemmas and concerns (Accreditation Canada, 2024).

WHAT DOES ETHICS LOOK LIKE AT HEALTH PEI?

Health PEI (HPEI) provides tools and resources to support ethical decision-making, promote safe care, and quality service. Among these resources is an **ethical decision-making framework**.

To support ethical decision-making throughout the organization, HPEI has a **Clinical and Organizational Ethics Committee** that:

- Provides a forum for exploring and addressing ethical dilemmas of a clinical or organizational nature.
- Acts in an advisory capacity on ethics consults.
- Delivers ethics education to HPEI staff.
- Monitors and analyzes ethical issues and trends to guide quality improvement.

HPEI has a provincial [Research Ethics Board](#) to assist with ensuring the safety and well-being of those participating in health research.

For more information about Ethics at HPEI, visit the Ethics page on the Staff Resource Centre:
