

## HEALTH PEI POLICY

---

- Health PEI has an array of clinical and administrative policy documents. These documents outline employee expectations and Required Organizational Practices (ROPs).
- Policy documents and supporting resources are located on the [Policy Document Management System \(PDMS\)/Medworxx](#); **Health PEI's source of truth for all Health PEI policy documents.**
- A *Health PEI Policy Document Development and Management* policy is being created to guide a standardized approach to provincial policy development. This policy will include the establishment of consistent approving authorities, roles and responsibilities, criteria and best practice processes.

## THE HEALTH PEI POLICY OFFICE CAN HELP WITH YOUR POLICY NEEDS

---

The Health PEI Policy Office provides support on:

- Policy document development and implementation at various stages including:
  - Policy 101 education series for policy development and implementation;
  - Jurisdictional scans;
  - Consultations and workshops for policy projects, work planning and writing;
  - Guidance on the policy review and approval process;
  - Preliminary and final reviews of policy drafts;
  - Guidance on applying policy analytical lenses (ie. Climate Change, Equity Diversity and Inclusion, Anti-Racism)
- The development of Health PEI Protocols for regulated health professionals

Please contact the *Health PEI Policy Office* at [healthpeipolicy@ihis.org](mailto:healthpeipolicy@ihis.org), for more information.
