

# The Prince Edward Island Advantage for Family Medicine Physicians

Practice family medicine where you're valued, supported, and free to focus on care.

## Full Overhead Coverage

*We Handle Clinic Costs - You Focus on Care.*

Rent, utilities, equipment, office and clinical staff support - PEI covers it all in our Patient Medical Home model, so you're not running a business instead of practicing medicine.

## Experience Island Living

*Work, Lifestyle, Balance.*

Prince Edward Island offers short commutes, safe communities and an unmatched lifestyle – meaning more balance for you, both personally and professionally.

## Design Your Own Practice

*You Have Options. Salaried, Contracted or Fee-For-Service.*

**Scope Flexibility:** Choose ER, addictions work, palliative care, hospital work and more; design your own career.

**Incentives:** Bonus payments when you manage above-benchmark panels.

## Care that Works Together

*Collaborative Care Through Patient Medical Homes.*

Supported by centralized resources, our Patient Medical Home model allows you to focus on what you do best: caring for people.

## Medical Education

*A New Academic Environment.*

At the new medical school, you have the unique opportunity to shape medical education, engage in research and inspire the next generation.

## Elevating Family Medicine

*Your Expertise, Recognized - and Rewarded.*

Family physicians in PEI are treated as true specialists: you receive specialist-level pay and the professional recognition your scope demands.

Our entire Physician Services Agreement is public. You can review every clause, every dollar value - and know exactly what to expect.

[See the agreement here.](#)
