

MONTHLY BULLETIN

ATTENTION: ALL FACILITIES

**UPDATES OCCURRING WITHIN THE CIS THE
WEEK OF - NOVEMBER 27TH, 2017**

The following solution areas have updates:

Provincial Drugs & Therapeutics (PD&T) - Page 2

Pharmacy - Page 2

PowerChart - Pages 3 - 4

FirstNet - Page 5

PowerChart, FirstNet & SurgiNet - Page 5

Labs - Pages 6 - 9

UPCOMING EVENTS

Provincial Drugs & Therapeutics (PD&T) Updates:

- Inclusion/Exclusion criteria for MI - updated.
- Blood bank powerplans - new order added advising nurses to discontinue the plan 4 hours after transfusion has been completed.
- Ortho VTE prophylaxis pre-op - a new plan to be added to the ED ORTHO Fracture Admit plan as a stand alone plan for situations where pre operative orders for VTE prophylaxis are needed for ORTHO patients.
- New plan for Intrapleural administration of Alteplase and Dornase. Associated document will be included outlining procedure based on Horizon Health (Moncton).
- Reminder: the influenza vaccine powerplan was updated based on NACI 2017-2018 and Chief Public Health Office recommendations.
- QEH ICU Tube Feeding plan - will be divided into 2 plans, one for gastric and one for intestinal. Updates to reflect existing protocol.

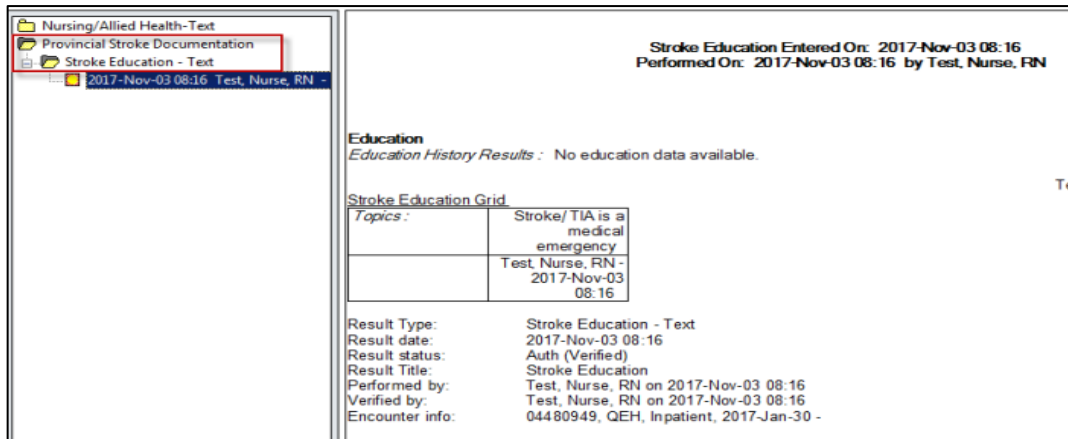

Pharmacy Updates:

New field: Topical cream and ointment orders now contain a new mandatory “Apply to” field. Any body site can be entered in this field.

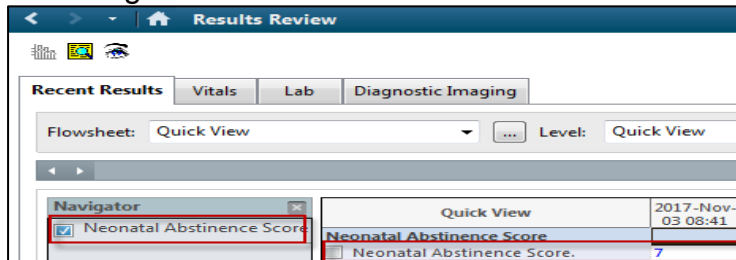

The screenshot shows a medication order interface. At the top, there is a header with fields for Order Name, Status, Start, and Details. Below this, the medication name 'miconazole topical (miconazole 2% topical ...)' is displayed along with the order date and time. The main section is titled 'Details for miconazole topical (miconazole 2% topical cream)'. It contains several fields: '*Dose: 1 application', '*Route of administration: Topical', '*Apply to:' (highlighted with a red box), '*Frequency: BID', 'Drug Form: Cream', 'PRN:', 'Priority:', 'May use own medication: Yes No', 'May self administer: Yes No', '*** Independent Double Check Required ***: Yes No', '*Start Date/Time: 2017-Nov-08 21:00', and 'Stop type:'. The 'Apply to' field is currently empty.

PowerChart Updates:

New Powerform: Stroke Education powerform will now folder under Provincial Stroke Documentation when sorting the Document tab by TYPE

New Neonatal Abstinence Score: Under Assessments folder in Adhoc charting. The score posts to Recent Results and Vital Signs tab in Results Review.

The Violent/Aggressive alert: Will go live November 27, 2017 and will follow the new Violent/Aggressive Policy. This will be a staggered implementation by site until the education of the policy is completed. Education is expected to be completed at all sites by December 18th. See your clinical educator for more details.

1. Violent/Aggressive will appear on the demographic bar of all charts; PowerChart, FirstNet and SurgiNet.

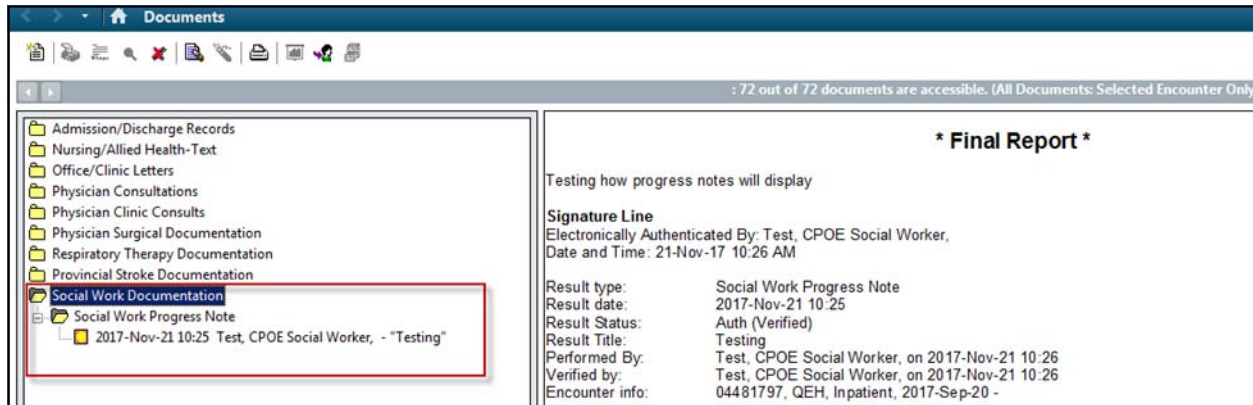

2. Three New powerforms to support the policy are now available in Adhoc/Assessments.

PowerChart Updates: Continued

Social Work Progress Notes: Will now folder under Social Work Documentation when the Documents tab is filtered by TYPE.

FirstNet Updates:

There will be information sent out through the FirstNet Working group regarding the tracking board notification for the Violence/Aggressive alert.

PowerChart, FirstNet & SurgiNet Updates: **QEH Only**

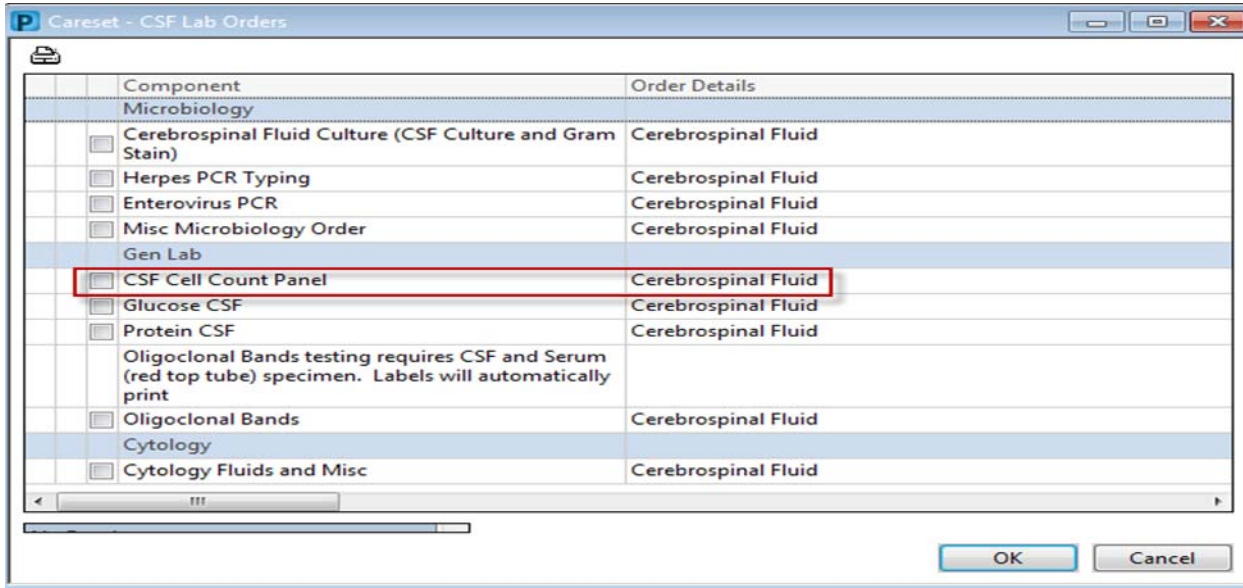

New! Eye Surgery Suite Preoperative Checklist: The new Eye Surgery Suite Preoperative Checklist powerform is going to replace the preoperative checklist that is currently being used for patients before going for eye surgery at the QEH.

A task for the new form will fire once a pre-op Ophthalmology powerform is initiated. If no powerform is used, the form can be found in the AdHoc folder.
