

ATTENTION: ALL ENDUSERS

CHANGE TO DISPLAYED DATE/TIME WITHIN CERTAIN APPLICATIONS

Please note that a recent Cerner system change will result in users seeing “ADT” or “AST” appended at the end of various date/time fields within certain applications. These acronyms reflect the “Atlantic Daylight Time” and “Atlantic Standard Time” time zones and are not an error.

This change was required to ensure error-free functioning of medication batch dispensing during the yearly Fall and Spring time changes.
