ATTENTION: ALL FACILITIES

UPDATES OCCURRING WITHIN THE CIS THE

WEEK OF - APRIL 24TH, 2023

The following solution areas have updates:

Order Sets - Page 2

PowerChart, FirstNet & SurgiNet - Pages 2 - 3

UPCOMING EVENTS

Privacy Matters Corner...

Did you know that you can add a comment regarding your reason for accessing a patient chart, even with View-Only access?? It is good to do this if you are accessing a chart for reasons outside of your main role ie: when working multiple roles, picking up shifts in different areas, accessing the chart outside of your scheduled shift, etc. This “comment” can be included in the auditing process and quickly shows your reason for accessing a chart. For more information on how to do this, please go to https://src.healthpei.ca/sites/src.healthpei.ca/files/CIS/Privacy_Matters_April_2021.pdf

Order Set Updates:

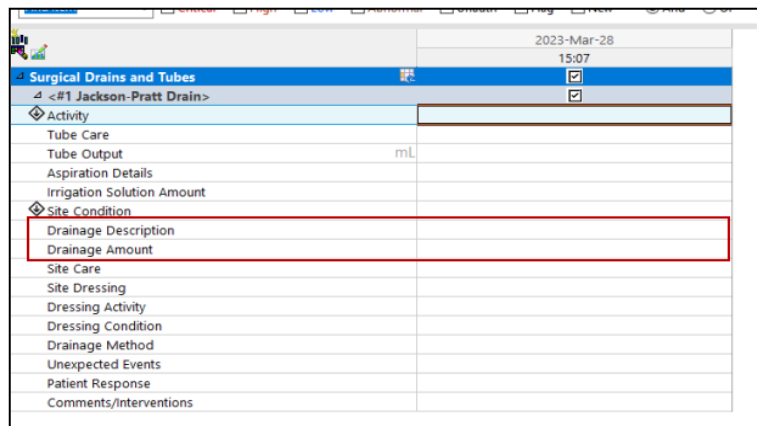

NEW! ICU Electrolyte Replacement Order Set

Update! ED Admit Order Set

PowerChart, FirstNet & SurgiNet Updates:

Updates to iView

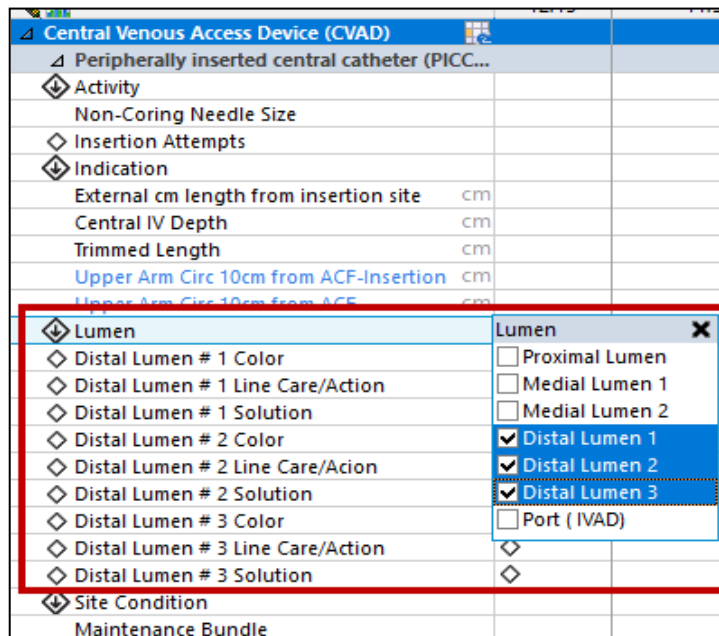

Surgical Drains and Tubes: Updated - Drainage Description and Drainage Amount are no longer part of conditional logic of Site Condition so that staff can chart if the drainage is related to the insertion site or drainage within the device.

Update to the CVAD, Midline Sections:

The **Peripheral IV, Midline, and CVAD** sections all have some nomenclature changes to various fields. The **“Upper Arm Circ 10cm from ACF_Insertion”** will now carry forward in the CVAD and Midline IV sections.

The CVAD **“Lumen”** field will have 3 new fields for the Distal lumen to document multi lumen PICC lines as they are all considered to be distal lumens.

PowerChart, FirstNet & SurgiNet Updates: (continued)

New Communication order : ECG-Inpatient order for Future Date. This is for future date inpatient ECG orders. It posts to the handoff page to remind the Nurse to place the actual ECG order when required.

The screenshot displays a software interface for 'Communication Orders (3)'. A table lists three orders, with the first one highlighted. A pop-up window provides details for the selected order.

Selected Visit	Status	Ordered
ECG-Inpatient Order for Future Date	Ordered	03/15/23 13:12
ECG if	Ordered	03/13/23 09:34
	Ordered	03/06/23 10:42
