

# MONTHLY BULLETIN

**ATTENTION: ALL FACILITIES**

**UPDATES OCCURRING WITHIN THE CIS THE**

**WEEK OF - AUGUST 30TH, 2021**

**The following solution areas have updates:**

**PowerChart - Page 2**

**FirstNet - Page 3**

---

## **UPCOMING EVENTS**

**There are no upcoming events in CIS.**

---

## **Privacy Matters Corner...**

Always ask yourself "Do I need to know the information I am accessing in order to provide care or perform my work duties at this time?" It is important to only access patient information that is pertinent to your job and at the time it is needed. Legally, just because you were once involved with a patient's care is not reason enough to access a patient's chart. You need to have a reason for accessing it **at that**

**time.** If the patient is no longer in your care (ie. patient has been discharged or transferred to a different unit, etc.) the care relationship has ended so you must have a valid "need to know" the information, a purpose for accessing it and document that reason in the comment section provided.

## PowerChart Update:

**Updates to the Adult and Pediatric Admission History forms** - Immunization documentation. There will now be a place to record First and Second dose dates of COVID Vaccine. This information will cross encounters and also post on a new tab on the handoff page called Community Immunizations. On the Patient Summary for Physicians, it will post to the Immunization Documented section.

**New Blood Product** - Panhematin is a new blood product and has been added to the Blood Administration Transfusion form under the data field Blood Products. There is also an available transfusion order.

**REMINDER:** If an order has been suspended after the task date and time, that task will remain present on the MAR. The row will be purple but the task will be active. Chart the task as NOT DONE with appropriate reason.

In this example Vitamin B was suspended after the 9am task has posted to the MAR. Right click and select Chart Not Done.

Medications	2021-Aug-05 09:13	2021-Aug-05 09:00	2021-Aug-05 08:00	2021-Aug-04 21:00
