

# MONTHLY BULLETIN

**ATTENTION: ALL FACILITIES**

**UPDATES OCCURRING WITHIN THE CIS THE**

**WEEK OF - JUNE 24TH, 2019**

**The following solution areas have updates:**

**Pharmacy - Page 2**

**PowerChart - Page 3**

**PowerChart, SurgiNet, FirstNet & Physicians - Page 4**

**FirstNet - Page 5**

## **UPCOMING EVENTS**

**There are no upcoming events in CIS.**

### **Further Information:**

Bulletins are available for viewing at: <https://src.healthpei.ca/cis-bulletins>

If you have questions please contact ITSS Service Centre:

Phone 3600 in Charlottetown, (6)-3600 outside Charlottetown;

## Pharmacy Updates:

### Multum Alert Window Upgrade - mCDS (Medication Clinical Decision Support)

All the information available in the current window will remain; but some enhanced features will be added:

- 1) Interacting med can be discontinued from this window
- 2) Reference Text, including Education Leaflets can be viewed/printed
- 3) Allergies list may be viewed and updated inside the window
- 4) Comments may be added that can be seen by other clinicians (comments are associated to the patient, not the actual alert)
- 5) The most recent INR, Creatinine, and Creatinine Clearance results will display under the “Discern Alerts” section.

**ZZ TEST, PATIENT FIVE - 010202422**

**Medication Clinical Decision Support (mCDS)** (Collapse All)

ZZ TEST, PATIENT FIVE - 010202422

The order was created with the following alerts:

- amiodarone 200 mg, Oral, BID

**Comments (1)**

Date/Time	Note	Author	Edit
05/27/2019 15:32	Allergy penicillin: Patient has had ceftriaxone before with no reaction	Test, CPOE Pharmacist, Pharmacist	[Edit]

**Allergy (1)**

Severity	Allergy	Medication	Details	Reaction Type	Allergy Comments	Reason
	amiodarone	amiodarone	200 mg, Oral, BID	Allergy	Reaction Symptoms: Not entered	Source: Not entered

**Drug/Drug (15)**

DC	Severity	Medication	Details	Status	Interaction Information	Reason
<input type="checkbox"/>	Major	epiRUBicin (Pharmorubicin)	20 mg, 10 mL, 440 mL/hr, IV, Today	Ordered	amiodarone-epirubicin	Select Override Reason

**Discern Alerts (3)**

Alert Information

Serum Creatinine = 115 umol/L  
Est CrCl Cockcroft-Gault = 25.69 mL/min  
INR = 2.1

**Provider Filtered Alerts**

Apply to all interactions  
 Apply only to required interactions  
 Apply only to selected

Override Reason: Select Override Reason

ZZ TEST, PATIENT FIVE - 010202422 [Continue] [Remove New Order]

## PowerChart Updates:

**New Powerform - Referral to Restorative Care (QEH Only)** - Located in Ad Hoc charting Admit/Transfer Discharge folder.

**POC Urinalysis** - The Point of Care (POC) urinalysis results are now seen on the assessments tab the same as the POC glucose result. The results are also viewable on the Recent Results Tab (Quick View) and on the Lab Tab. The results will also post in IVIEW and PNED.

Assessments	
Flowsheet: Clinical Info	Level: Clinical Info
<b>Navigator</b>	<b>Clinical Info</b> 2019-Jun-13 08:47
<input checked="" type="checkbox"/> POC Urinalysis	<b>POC Urinalysis</b>
	<input type="checkbox"/> POC Urine Bilirubin 10
	<input type="checkbox"/> POC Urine Glucose 16
	<input type="checkbox"/> POC Urine Hgb 8
	<input type="checkbox"/> POC Urine Ketones 14
	<input type="checkbox"/> POC Urine Leukocytes 20
	<input type="checkbox"/> POC Urine Nitrite 22
	<input type="checkbox"/> POC Urine pH L 4.0
	<input type="checkbox"/> POC Urine Protein Qual H 18.00
	<input type="checkbox"/> POC Urine Spec Grav H 6.000
	<input type="checkbox"/> POC Urine Urobilinogen 12

**Results review**

Lab results / [POC Urinalysis](#)  
2019-Jun-17 10:21

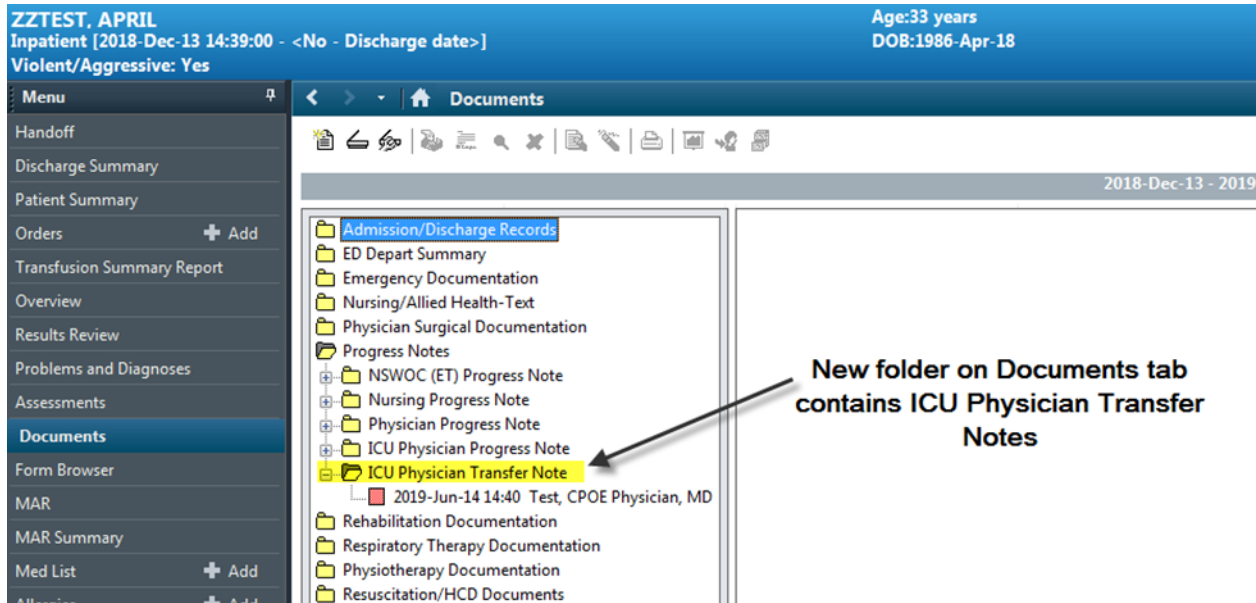

POC Urine Bilirubin	Negative
POC Urine Glucose	Negative
POC Urine Hgb	Negative
POC Urine Ketones	2+
POC Urine Leukocytes	Negative
POC Urine Nitrite	Negative
POC Urine Protein Qual	Negative
POC Urine pH	8.0
POC Urine Spec Grav	1.005
POC Urine Urobilinogen	Negative

/ POC Urinalysis / Other

**Interpretation:** Labs unremarkable / Normal results / Consistent with previous results / Abnormal results == / Other

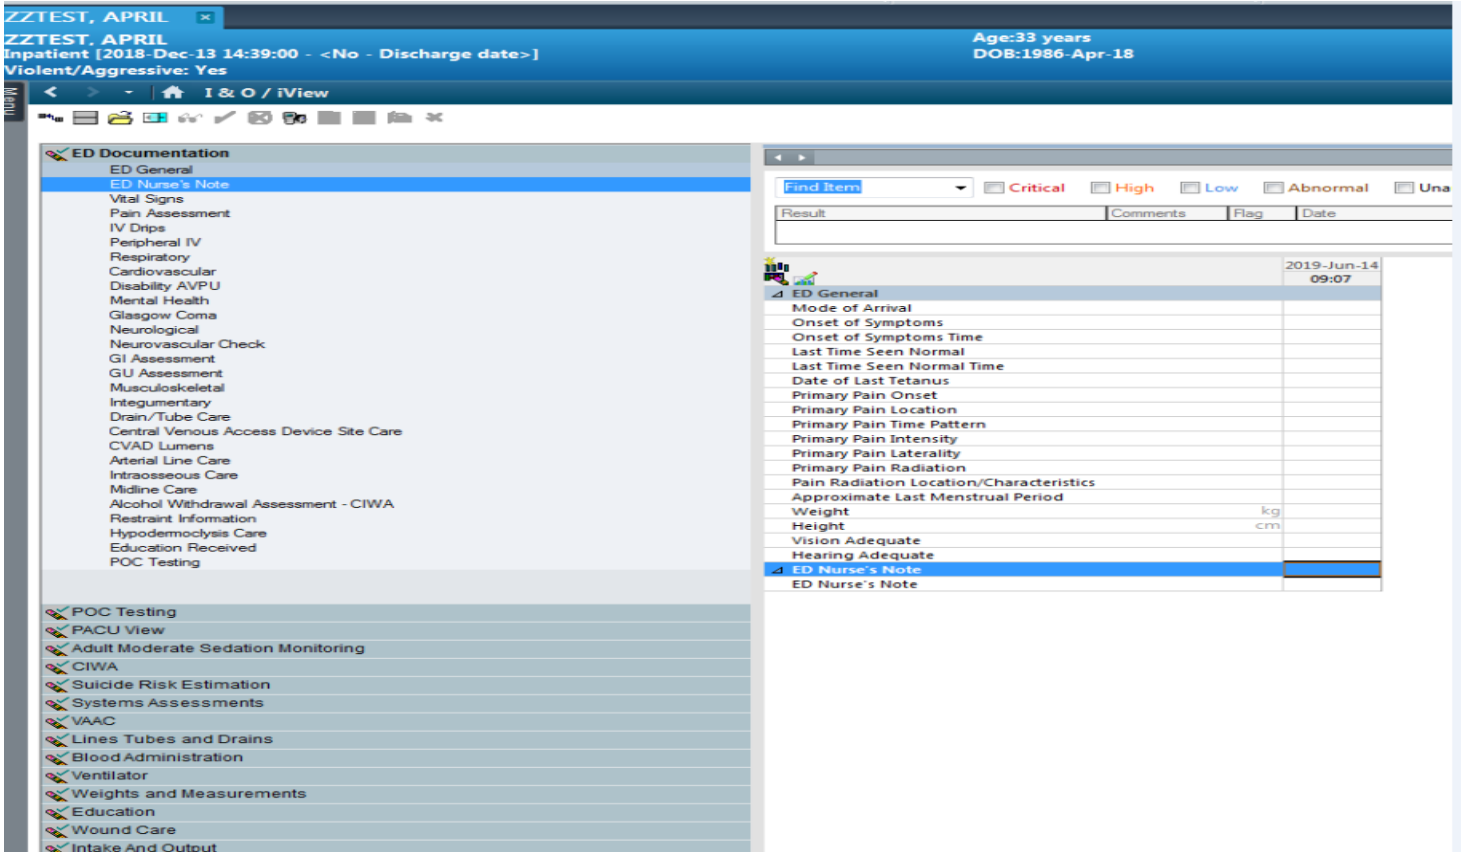

## PowerChart, SurgiNet, FirstNet & Physician User Updates:

**New Folder** - There is a new folder in the Documents tab called “ICU Physician Transfer Notes”.

## FirstNet Updates:

**iView Implementation:** QEH Emergency is now Live with iView Documentation for ‘Nurse and Nurse Manager’ positions. iView Documentation is accessible from the I&O tab:

The iView Bands function the same as I&O. Click on the band to open and then document within the sections. The order of the bands are customizable for each enduser’s workflow. Once you have signed your documentation, other clinicians can view your documentation from the ‘Assessments’ tab.
