

# MONTHLY BULLETIN

**ATTENTION: ALL FACILITIES**

**UPDATES OCCURRING WITHIN THE CIS THE  
WEEK OF - MAY 25TH, 2020**

**The following solution areas have updates:**

**Provincial Drugs & Therapeutics (PD&T) - Page 2**

**PowerChart - Page 2**

**FirstNet - Page 3**

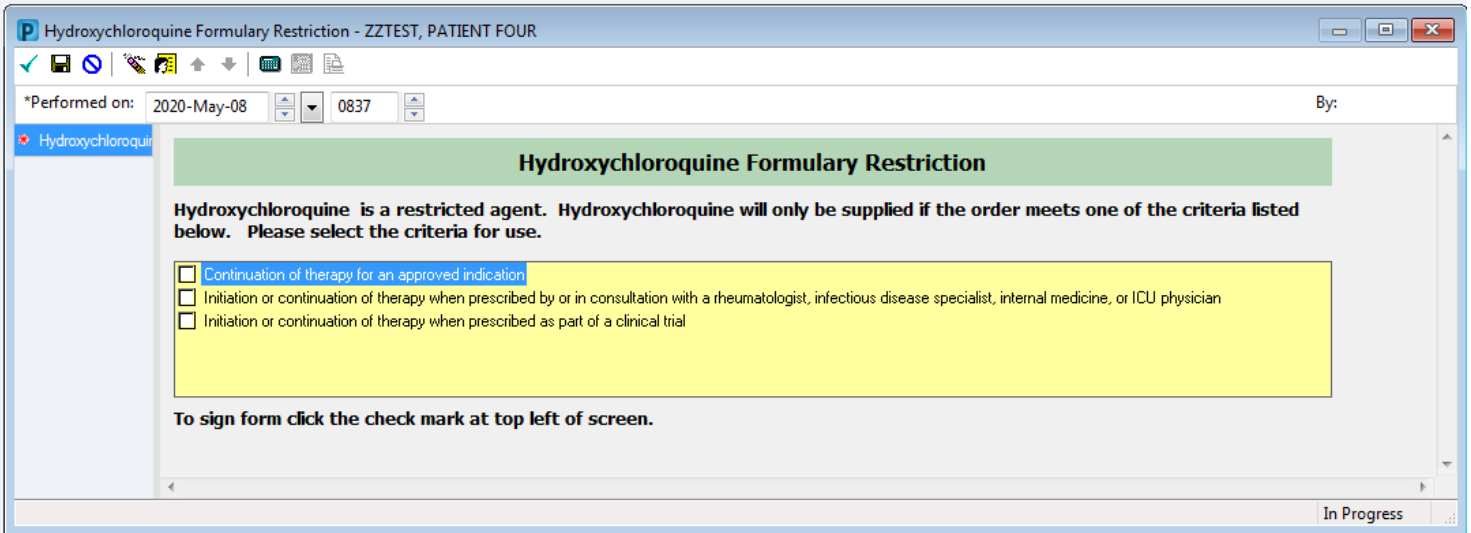

---

## **UPCOMING EVENTS**

**There are no upcoming events in CIS.**

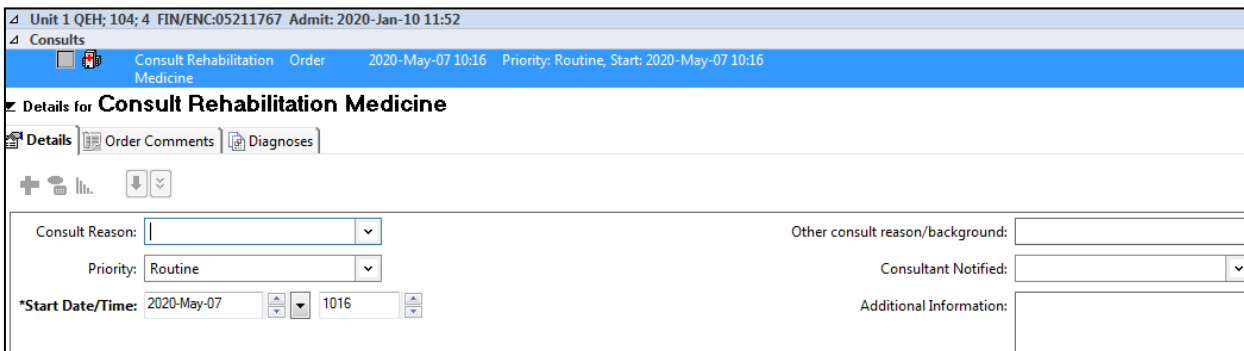

## PD&T Updates:

PD&T has approved the implementation of formulary restrictions for hydroxychloroquine. The criteria for use are outlined on an associated powerform that will accompany hydroxychloroquine orders in CIS.

## PowerChart Updates:

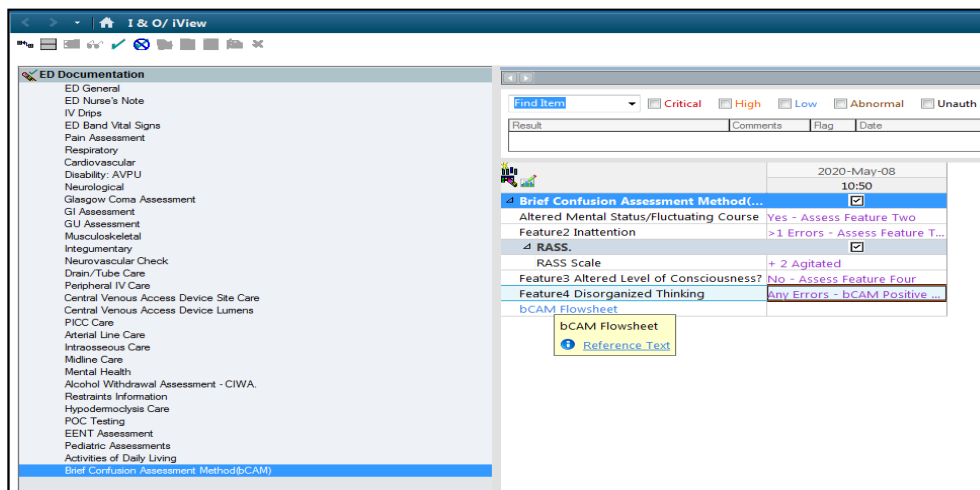

**Revision to the Consult Physiatry order:** The order will now be “Consult Rehabilitation Medicine”. Please DO NOT use the Consult Physician order.

The workflow is unchanged: to consult this specialty, place the Consult Rehabilitation Medicine Order and call the physician to notify verbally of the pending consult request.

## FirstNet Updates:

**New Section:** Addition of bCAM (Brief Confusion Assessment Method) section to the ED Documentation iView band in FirstNet.

**New Link:** Addition of the “Meant2Prevent” link for the ED Physician positions in FirstNet.

**New Powerform:** Addition of bCAM (Brief Confusion Assessment Method) Powerform. This form will be used for the ongoing documentation if the patient transfers into ICU at PCH. Form is located in Ad Hoc under Assessments.
