

MONTHLY BULLETIN

ATTENTION: ALL FACILITIES

UPDATES OCCURRING WITHIN THE CIS THE

WEEK OF - NOVEMBER 28TH, 2022

The following solution areas have updates:

New Mental Health Programs - Page 2

Order Sets - Page 3

PowerChart, FirstNet & SurgiNet - Pages 3 - 6

UPCOMING EVENTS

December 5th 2022, CIS will be releasing revised and new iVIEW content. A separate iView bulletin will be sent out the week before the go-live. Please refer to the Clinical Educators/Clinical Informatics Leads for details of the release and any upcoming Training sessions.

Privacy Matters Corner...

Do you know that being mindful of physical safeguards is important even with electronic

records? Keep in mind things like:

- Who can see the information you are accessing
- Screen positioning
- Where the computers are located
- Privacy screens
- Closed/locked doors
- Where you leave your computer & where your printer is located, etc.

It is everyone's responsibility to keep patient information Private & Confidential.

New Mental Health Programs

Update to PowerChart effective November 21, 2022 - Mental Health Intensive Day Program

Implementation. Additional sections have been added to the Discharge Planning Assessment to support new Mental Health Programs.

Effective November 30, 2022 Structured Programming will be implemented with both an Outpatient as well as 28-day Residential Service.

The screenshot shows the 'Discharge Planning Assessment' interface for a patient named ZZTEST. The title bar reads 'Discharge Planning Assessment - ZZTEST, PATIENT NON CANADIAN'. The interface includes a toolbar with various icons and a navigation pane on the left with the following items: Care Plan, Discharge Assessment, Current Home Environment, Discharge Checklist, COPD Discharge Checklist, Discharge ADL's/Transfer, Follow Up Instructions, Education, Valuables/Belongings, Mental Health and Addictions Discharge (highlighted), and Mental Health Education. The main content area is titled 'Mental Health and Addictions Discharge Planning' and contains the following sections: 'History of Present Illness/Injury' with a text input field; 'Additional History of Present Illness/Injury' with a text input field; 'Expected Date of Discharge' with a date picker set to 'xxxx-xx-xx'; 'Risks' with a grid of checkboxes for Suicidal, Homicidal, Ideation, Intent, Plan, Attempt, Previous attempt, Self mutilation, Elopement, and Other; and 'MH and Addictions Agreement of Services Signed' with radio buttons for 'Yes' and 'No'.

Order Set Updates:

ENDO Colonoscopy Preparation Bi-PegLyte - NEW

ENDO Colonoscopy Preparation Pico-Salax - NEW

PowerChart, FirstNet & SurgiNet Updates:

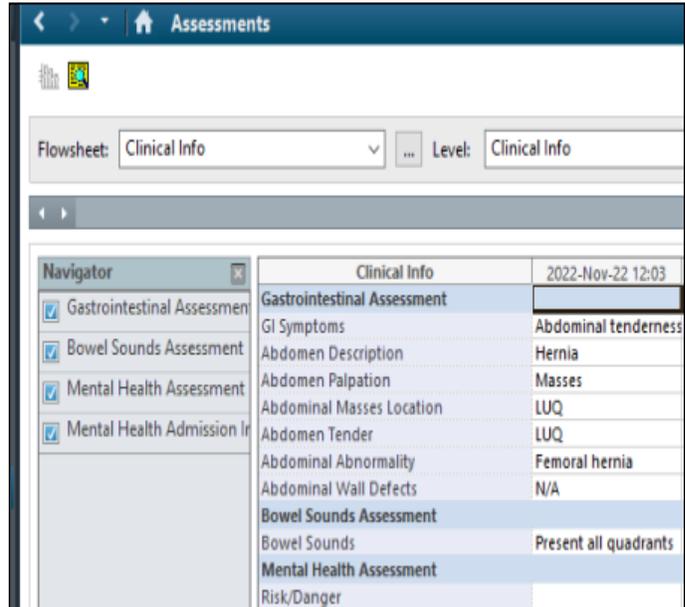

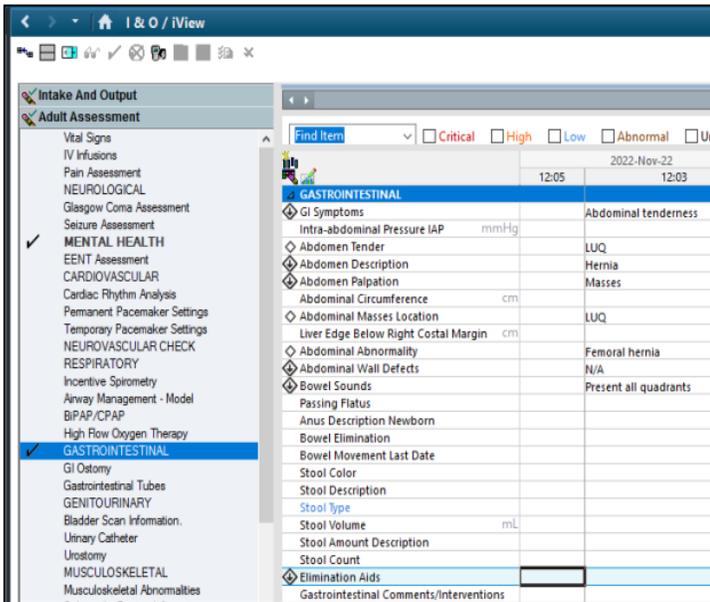

Updates to Clinical Content - iVIEW

Reminder that at Go-Live there may be duplicate tasks on the task list/Care Compass which will open either to a form or to iVIEW. We will be doing TASK migration just prior to shift start 7am on December 5th, 2022.

Reminder post Go-live: iView content can be reviewed from iView OR on the Assessments tab.

It **DOES NOT** post to the Documents tab OR Form Browser.

iVIEW

Please direct questions to the Clinical Educators/Clinical Informatics Leads
