

# MONTHLY BULLETIN

**ATTENTION: ALL FACILITIES**

**UPDATES OCCURRING WITHIN THE CIS THE  
WEEK OF - OCTOBER 26, 2020**

**The following solution areas have updates:**

**Order Sets - Page 2**

**PowerChart - Page 2**

**Lab - Pages 2 - 3**

---

## **UPCOMING EVENTS**

**Please Note: No downtime required for Fall time change.**

With our latest code upgrade, we no longer require to have a scheduled downtime for the Fall time change. On November 1st when we fall back, the system will remain operational.

## Order Set Updates:

PEICTC High Dose Methotrexate Order Set - New

## PowerChart Updates:

**Braden Task** - As a result of the implementation of the Nursing Documentation Standard, the Braden Task will no longer fire to the task list q 7 days after originally charted on admission. These assessments/tasks will remain within the appropriate forms and powerplans.

## Lab Updates:

### Modification to Powerplans, Liver Function Lab Orders and Liver (LFT) Panel -

Two powerplans, Liver Function Lab Orders and Liver (LFT) Panel have been identified as having identical orders, but different order sentences (Routine and AM Next Day Collect). They are now combined into one powerplan **Liver Function Lab Orders** with the option to select either order sentence. Liver (LFT) Panel will be a synonym of the main order.

The screenshot displays a software interface for managing lab orders. At the top, there is a toolbar with icons for 'Add to Phase', 'Check Alerts', 'Start' (set to 'Now'), and 'Duration' (set to 'None'). Below this is a table with columns for 'Component', 'Status', 'Details', and 'Order Con'. The table is titled 'Liver Function Lab Orders (Initiated Pending)'. Under the 'Laboratory' section, several lab tests are listed with checkboxes and a dropdown menu for each. The dropdown menu for 'Protein Total' is open, showing two options: 'Blood, Routine collect, Start: T:N' and 'Blood, AM Next Day collect, Start: T+1;0600'. A callout box labeled 'select order sentence' points to the dropdown menu.

Component	Status	Details	Order Con
<b>Liver Function Lab Orders (Initiated Pending)</b>			
Laboratory			
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Protein Total		Select an order sentence	...
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Albumin Level		Select an order sentence	...
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Bilirubin Total		Select an order sentence	...
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Alkaline Phosphatase		Select an order sentence	...
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> ALT		Select an order sentence	...
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Gamma Glutamyl Transferase		Select an order sentence	...
<input type="checkbox"/> <input checked="" type="checkbox"/> AST		Select an order sentence	...

## Lab Updates: Continued

The following powerplans that contained the Liver (LFT) panel as a subphase will now be replaced with Liver Function Lab Orders as the subphase.

The list includes:

- MED General Admit (v.1 - Production)
- OBGYN Hypertensive Disorder of Pregnancy Admit (v.1 - Production)
- GENSURG Enhanced Recovery After Abdominal Surgery (ERAS) Post op (v.1 - Production)
- ED/MED Inflammatory Bowel Admit (v.3 - Production)
- MED Transfer ICU/PCU to Floor (v.1 - Production)
- ED Clinical Decision Unit (CDU) (v.1 - Production)
  
- Hospitalist General Admit (v.1 - Production)
- Hyperemesis of Pregnancy Admit (v.1 - Production)
- GENSURG Enhanced Recovery After Colorectal Surgery (ERAS) Post op (v.1 - Production)

Example: MED General Admit Powerplan

The screenshot shows a 'Medication List' window with a table of lab orders. A red arrow points to the 'Liver Function Lab Orders' entry. A text box on the right contains the following text:

**MED General Admit Powerplan  
Liver Function Lab Orders  
replaces Liver (LFT) Panel  
Both order sentences are available**

Component	Status	Details
<input checked="" type="checkbox"/> Phosphate Level		Blood, AM Draw collect, Start: T+1;0600
<input checked="" type="checkbox"/> C-Reactive Protein (CRP)		Blood, AM Next Day collect, Start: T+1;0600
<input checked="" type="checkbox"/> Lipase Level		Blood, AM Draw collect, Start: T+1;0600
<input checked="" type="checkbox"/> BNP		Blood, AM Draw collect, Start: T+1;0600
<input checked="" type="checkbox"/> Lipid Profile - Fasting		Blood, AM Next Day collect, Start: T+1;0600
<input checked="" type="checkbox"/> Thyroid Stimulating Hormone (TSH)		Blood, AM Draw collect, Start: T+1;0600
<input checked="" type="checkbox"/> Vitamin B12 Level		Blood, AM Draw collect, Start: T+1;0600
<input checked="" type="checkbox"/> Order and Draw Blood Culture Aerobic/ Anaerobic X 2		if temperature greater than or equal to 38.5 C.
