Privacy Matters Corner...

“The “circle of care” is not unending that is why this term is being phased out. You are only permitted to access patient information in order to provide care to patients or for other purposes as permitted in the *Health Information Act*. If a patient is not in your care, you do not have a “need to know” their information.”

PowerChart Updates:

New Sedation Assessment for Pediatrics - QEH

Ad Hoc Pediatric Documentation Folder- University of Michigan Sedation Scale

University of Michigan Sedation Scale (UMSS)

- 0 -Awake and alert
- 1 -Minimally sedated: tired/sleepy, appropriate response to conversation/sound
- 2 -Moderately sedated: sleeping, easily aroused with light tactile stimulation/verbal command
- 3 -Deeply sedated: deep sleep, aroused only with significant physical stimulation
- 4 -Unarousable
