

RIS to RadNet Go-Live

- Health PEI is preparing to transition from the existing GE Centricity Radiology Information System (RIS) to Oracle Health RadNet on October 25, 2026.
- RadNet is part of our existing Cerner system and will support Diagnostic Imaging workflows, including scheduling, imaging orders, examinations and results.
- Technical cutover activities are scheduled to begin at **8:00 p.m. on Saturday, October 24**, with RadNet expected to go live at midnight on **Sunday, October 25**.
- Additional information about workflow changes and support arrangements will be shared as we approach go-live.

There will be further communication next week before go-live

Please contact Kerry Rogers, Manager Clinical Information System or Mike Devine, Manager CIS Operations for more information
