

Privacy Matters

The Health Information Act (HIA) establishes Health PEI's obligations as a custodian of personal health information, including protecting information from unauthorized access, use and disclosure. As Health PEI staff, we all have a duty to ensure we protect information and comply with the HIA.

The Access to Information & Privacy (ATIP) team has been working to identify and develop training and education to support Health PEI staff in relation to meeting our obligations. Most recently, the ATIP team has developed a short training video titled "**Snooping & the Need to Know**". It is available for all staff to view on the Staff Resource Centre website at:

Please take some time to view it!
