

# Privacy Matters

The Health PEI Access to Information and Privacy (ATIP) Team is thrilled to announce our new webpage on the Staff Resource Centre! Click the link below to check it out. You'll find all kinds of resources in relation to privacy and access to personal health information, freedom of information, privacy breach management, and more! Content is offered in various formats to suit all types of learners, including video trainings, FAQs, slideshows, toolkits, and one-pagers. We will continue to add content, so bookmark our page and keep checking back. We welcome ideas from staff on what types of trainings and resources you would like to see added to our resource page. Please send all feedback and content ideas to [healthprivacy@ihis.org](mailto:healthprivacy@ihis.org).
