**Provider Check in -** This functionality enables an end-user to make it known to the Department that they are available, as a provider, to treat patients. Once an end user has checked into FirstNet they have the ability to assign themselves to patients by using the Check In functionality.

1. The first time you log into FirstNet you will be asked if you want to be checked in as an

available provider. Click on the icon in the upper right corner of the screen. 2. Click on Check In.
