Charting a PRN Response

The system will populate a PRN Response for certain PRN medications (ie: pain, nausea/vomiting).

The PRN Response task will display on the MAR, Care Compass, LaunchPoint and Task List:

PRN tasks will fire after administration time:

- 1. Oral, IM and Subcutaneous medications 30 minutes
- 2. IV 5 minutes

MAR:

To chart a PRN Response intervention click in the task and the PRN form will open:

Completing the PRN Response from any of these locations will automatically update the other tasks.

Access the PRN Response task from one of the following 3 options:

From the MAR:

Single click on the "**PRN Response**" task to open the PRN Response form.
