

Charting an Infuse Volume Event

NOTE: Any infuse volume documented on the MAR through an Infuse event will flow to I & O tab.

1. Click the appropriate task or right-click and select **“Chart Details”** from the menu.

| Medications | 2012-Nov-21 15:51 | 2012-Nov-21 15:04 |
|--|-------------------------------------|----------------------|
| Sucrose | | |
| Continuous Infusions | | |
| Normal Saline IV Solution 1000 mL | Pending | |
| 75 mL/hr, IV, 1,000 mL, Start: 2012-Nov-21 15:02 | Last bag started: 2012-Nov-21 15:04 | |
| Administration Information | | Begin Bag 1,000 |
| Sodium Chloride 0.9% IV Solution | | * Auth (Verified) |

2. The continuous Infusion window opens
3. The **“Begin Bag”** event will be selected by default. Select the **“Infuse”** charting event.

The screenshot shows a software window titled "Sodium Chloride 0.9% IV Solution 1,000 mL: ZZTEST, PATIENT THIRTEEN". The main content area displays "Normal Saline IV Solution 1,000 mL" with a rate of 125 mL/hr, IV, 1,000 mL, and a start time of 2013-Aug-01 10:50. A list of events is shown, with "Infuse" selected and highlighted by a red box. Below the event list, the "Normal Saline IV Solution 1,000 mL" details are shown, including a checked "Yes" for "Normal Saline IV Solution 1,000 mL". The "Infuse volume (mL)" field is highlighted in yellow. The "From" and "To" fields are set to 2013-Aug-01 1050 and 1053 respectively. The "Performed by" field is "Test, CPOE RN, RN". The "Bag #" field is "1" and the "Site" field is "Hand Right". The "Infuse" button at the bottom right is highlighted with a red box.

4. In the **“Infuse volume (mL)”** box, enter the amount infused.

- In the **“From”** date and time boxes, the last charted date/time or the Begin Bag date and time are defaulted. Modify the date and time in the **“From”** and **“To”** boxes if needed.

The screenshot shows a software interface for entering an IV infusion event. At the top, there is a field for ***Infuse volume (mL):** with a yellow background and a red border. To its right is a **Bolus** checkbox. Further right is a **Comment...** button. Below these are two rows of date and time pickers: ***From :** (2013-Aug-01 1053) and ***To :** (2013-Aug-01 1054). Below the time pickers is the text **Infused Over : 0 Hours 1 Minutes**. The ***Performed by :** field contains the text **Test, CPOE RN, RN** and a small icon. Below that is the ***Bag # :** field with the value **1**. The ***Site :** field is a dropdown menu currently showing **Hand Right**. On the right side of the form, there are three buttons: **Comment...**, **Clear**, and **Apply**.

- The **“Infused Over”** detail is calculated by the system and displays the Infused Over time
- The **“Performed by”** box is defaulted to the clinician who logged on. Please verify the name is correct.
- In the **“Bag #”** box, the number of the bag currently being infused is defaulted.
- In the **“Site”** field, the site is defaulted in from the last charted IV event. If required, change the site by clicking the drop down arrow to select the IV insertion site from the list.
- To enter **Comments** relating to the IV event, click **“Comment”** to open the dialog box. Enter a comment and click OK. If a comment is entered, an asterisk is displayed next to the IV event.
- Click **“Apply”** to save entry. The results are now displayed on the appropriate line in the date and time column.
- Click the green check mark  on the toolbar to sign the new or modified results.
