Problems and Diagnoses can be accessed from the Menu Bar.

The top section **Diagnosis** is the current diagnosis for this encounter.

- This does not carry over from encounter to encounter.
- It is the responsibility of the Physician to enter the diagnosis.

The bottom section **Problems** is a list of ongoing or chronic problems of the patient.

- These are carried over from encounter to encounter.
- It is the responsibility of the nurse to review and update these problems on each encounter.

## How to document a Problem:

## \*\*\*Conditions are not be free-text

- 1. Click on ADD in the Problems List Window
- 2. In Search Window, type in the name of condition
- 3. Search by "Starts with"
- 4. In the data box "within" use "Terminology" .
- 5. Click "search by name" or hit the "enter" key

Problem Search		/	n 🖌 🔀 🖂	olori
*Search: Cabg	Starts with	Vithin:	Terminology 🗸	
_ Search by Name		Search by Coo	de 27	
Terminology: SNOMED CT	. Terminology Axis	: <all termino<="" th=""><th>logy axes&gt;</th><th></th></all>	logy axes>	
Pi 📲 View Synonym 🎼 Concept Family 🐞	Multi Axial 🖳 🕞 🔤 Cros	s Mapping		
Term 🔺	Code	Terminology	Terminology Axis	
CABG - Coronary artery bypass graft	348641012	SNOMED CT	Procedure	
n: CABG >5 - Coronarv arterv bypass graft	348658019	SNOMED CT	Procedure Na	ame

6. Select the appropriate condition

- 7. Click "OK"
- 8. Opens to "Problem" window...confirmation, classification and status are defaulted in but may be changed if necessary

11. Click "OK" if problem list is complete "**or**"

Click "OK and ADD New" if you wish to add another chronic problem

12. Problem will then populate to the list and the Past Medical History tab.

## Mark All as Reviewed

**Problems** should be reviewed with each admission to Emergency and/or admission to hospital. With each subsequent admission, Problems should be reviewed with the patient, and the nurse should:

- 1. Review all problems entered to ensure correct information
- 2. Will modify or "add new" as required
- 3. Click on "Mark All As Reviewed" verify the nurse has reviewed the list
