

Reference Text

- Icon 
- Some Lab orders will have Reference Text attached to the order. This is a pop-up screen that will provide collection instructions or information that is relevant for that test.
Ex. **CrCI 24 Hour Urine** is an example of an order that would have reference text.
- Once the information in the pop-up is reviewed the screen can be closed by selecting OK in the bottom right corner of the screen. Order can then be completed as usual.
- To print information right click in white area and select 'print'
