Women's Health

(Maternal Solution)

Training Manual
The Women's Health solution has two new features:

1. The Tracking Board

2. An M-Page called "**Women's Health View**"

iView functionality will remain the same

There will be new navigational bands added for "**Obstetrical Care**"

Tracking Board:

Each facility will have individual tabs for their tracking board

Each tab will have the following basic information columns

- Room and Bed
- Name
- Status
- RN
- Provider

Depending on the individual location columns, there will be addition information columns

Women's Health Tracking Shell icons

	OB Triage/ Assessment		Adoption
T	**OB Triage/ Assessment**		**Adoption**

To Sign In:

1. Click on "**Provider"** on the grey toolbar.
2. Provider check in window opens.
3. You will need to:
   - Select the default reason
   - Select a background color for your display name
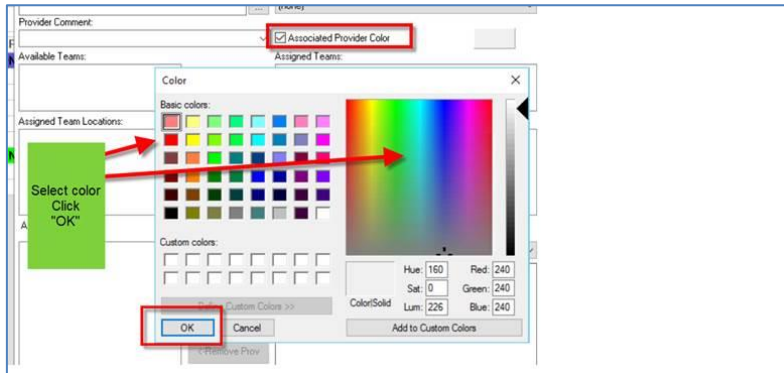

4. Click "**OK"**

To open a patient's chart:

1. Double click on the "blue arrow" in the first column on the tracking board
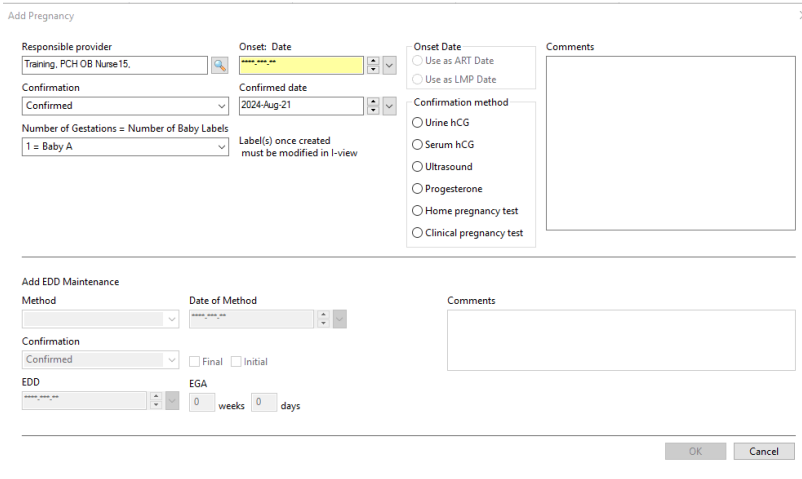

Women's Health M-Page:

The Women's Health M-Page will open
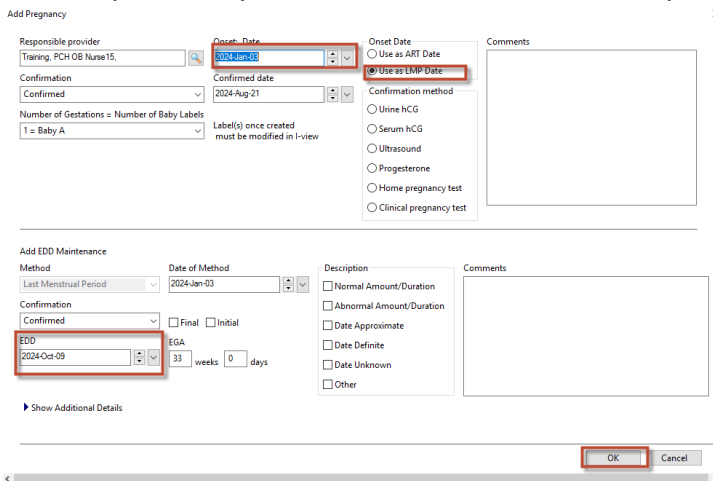

Adding Pregnancy/EDD:

1. From the Women's Health M-Page:
   - Click on "**Add button**"
2. The "Add Pregnancy" screen will open

3. Complete the required fields- calculate "EDD" by filling in last menstrual period.
4. The responsible provider field should have the providers name entered

5. Click "**OK**"

6. The Menu will expand allowing you to:
    - Complete documentation
    - View information previously documented elsewhere in the chart i.e. iView and FetaLink.

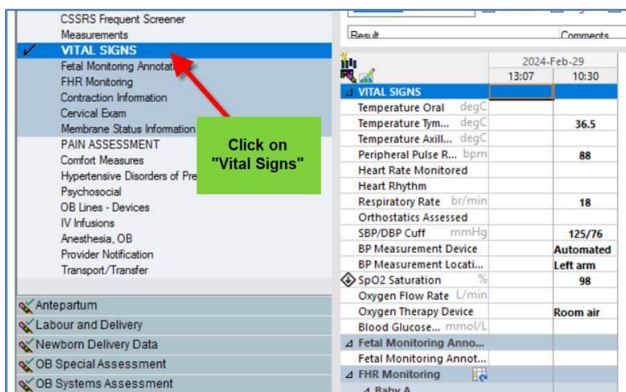

For example

When you click on a "**+**" sign:
    - it will take you to the appropriate screen to document

    - and/or the orders screen to "Add Orders"

Results Copy:

- Is a functionality allowing the end-user to copy results entered in Mother's chart to the Baby's chart
- This should be done at the end of each shift or more frequently as required
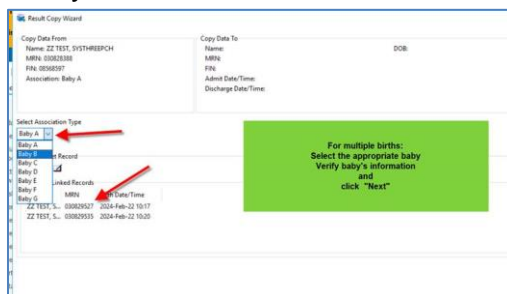

1. Open **Mother's** chart and click on "**Result Copy**"

2. For single birth, baby's information is auto populated.
3. **Verify** the baby's information is correct and click "**Next**"

4. For multiple births you will need to **select** the appropriate baby,
5. Verify the information and click "**Next**"

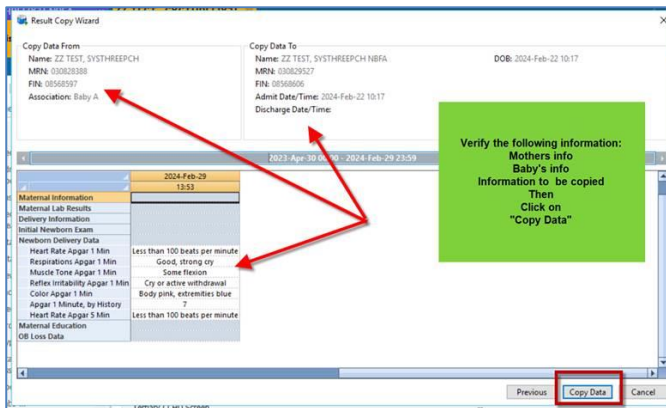

6. **"Recent Copy Wizard"** will open.
    - If there are new results a checkmark will default to that section.
    - Verify the results
    - Click "**Next**"

7. New screen opens.
8. Verify information again – Mother's info, Baby's info and results to be copied.
9. Click "**Copy Data**"

10. The information will be entered in the Baby's chart on the Neonate Workflow M-Page
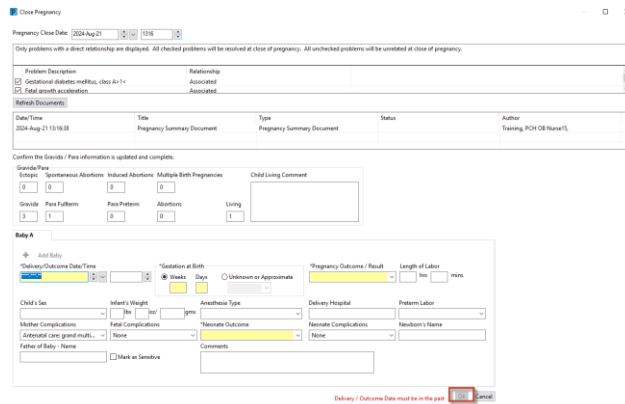

Close Pregnancy

When the patient has delivered and is ready to be discharged staff will need to close the pregnancy.

1. From the "Pregnancy Overview", click on "**Close Pregnancy**".

2. The "Close Pregnancy" window will open.
3. Complete the required fields.
4. Click "OK".

5. After you click "OK" it will return to the Add Pregnancy window.
6. If you need to reopen the pregnancy,
7. Click on Reopen last active pregnancy.
