

Working with Patient Access List (PAL)

Patient Access List features include:

- A high-level overview of key patient information.
- A notification source for important data at selected time frames
- Easy access to pertinent information.

Patient Access List (PAL) is accessed through a tab displayed in the *PowerChart®* Organizer. Click the PAL tab to view the specific information.

Note: The PAL is automatically refreshed every five minutes.

PAND ONCOLOGY PCN ***Encounter Specific***															Shift: 2014-Dec-09 04		
Name	Location	Age	Attending	Dx	Allergies	IV	Diet Orders	Code Status	Isolation	Vitals	POCBG	Obs Lvl	All O/New Lab	Overdue	PRN/Continui	Current	Braden

Demographic Section

Demographic information such as room number, age, attending physician, etc. are displayed in the demographic section.

Location: patient's room number and bed number

Age: patient's age

Attending: patient's attending physician

Diagnosis: displays listed problems (current and past) and diagnosis (this encounter only)

Allergies:

Allergy information displays in the demographics section. The icons represented in the allergy section indicate:

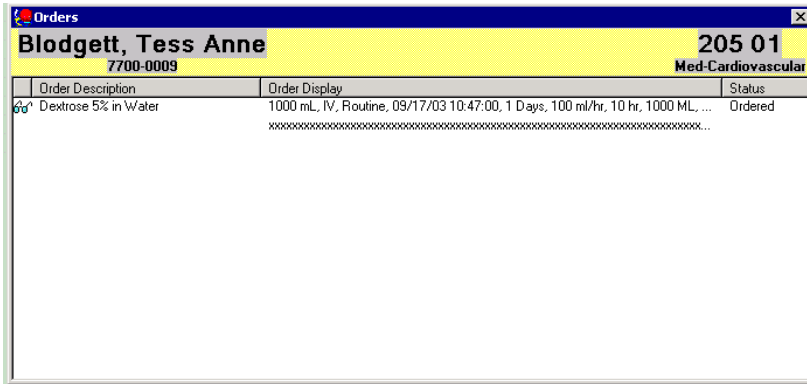

- Allergies recorded
- No Known Allergies (NKA) entered
- No allergies recorded

Double-clicking on the icon accesses the Allergy entry window.

Diet: patient's current diet order

Resuscitation: displays current resuscitation order

IV's: Double-clicking the the IV icon  accesses the orders dialog box which displays information regarding the ordered IV for the selected patient. This view is informational only and not interactive.

Isolation: Current isolation order

Note **There will be other sections depending on clinician's role and facility.

Notifications Section

The following icons can be displayed in the notification section

- Stat Orders - 
- Routine Orders - 
- Stat Results - 
- Routine Results - 
- Nurse Review - 

To review notifications details:

- Double-click the desired icon to display the dialog box containing detailed information for the patient you have selected.

To return to the PAL, close the Results dialog box. (click on the . upper right corner)

Tasks Section

Icons are displayed in the task section of the PAL to indicate the presence of specific scheduled and prn tasks.

	Blood Glucose Monitoring
---	--------------------------

	Vitals
	Specimen Collection
	Stat specimen collection
	Task icon
	Discharge Planning Assessment

The icons are associated to a group of tasks. For example, the heart icon is associated to nursing tasks. Single or multiple icons can display for any given user.
