

Clinical Code Upgrade - January 2023

PowerChart/SurgiNet & FirstNet

The color scheme and layout of PowerChart is blue:

Powerplan Discontinue Dialog Box update

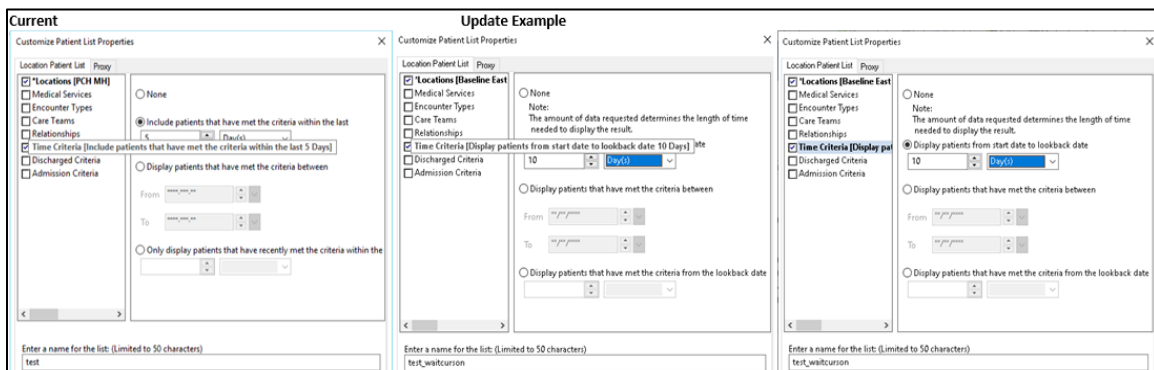

Medication Display on Scratchpad

Medications added to the scratchpad will not post in chronological order. The display has no impact on the order details or functionality of the order.

Custom Lists with Filters

The Time Criteria Filter dialog box on Custom Lists is updated with four options and the dialog box is resized to provide more clarity on filter options

- Second field label is now changed from "Include patients that have met the criteria within the last" to "Display patients from start date to lookback date."
- Fourth field is now changed from, "Only display patients that have recently met the criteria within the" to "Display patients that meet the criteria from the lookback date."

Current
