Patient Information Tab

The Patient Information tab consists of multiple sub tabs:

- Patient Demographics
- Visit List
- PPR Summary (Patient/Provider Relationship)
- Advanced Growth Chart

ņ	< 🔹 🔹 🛧 Patie	ent Info	
	Patient Demographics	Visit List PPR Summary	Advanced Growth Chart

Patient Demographics Tab

Displays general information regarding the patient including:

Name of the patient

Address

Telephone number

Religion

The information populated on this screen is entered/controlled by the Registration Department.

Visit List Tab

The top section of this screen displays a list of the patient encounters (visits) including the admission and discharge date, facility, location, medical service, encounter type and reason.

- The most recent encounter is viewed at the top of the list.
- Another encounter can be selected/opened by double clicking on the desired encounter
- Ensure the correct encounter is selected to open.

When the clinician **double clicks on a desired encounter** a message box will open that says "**This will change your patient**'s chart to another encounter.... Do you wish to continue?"

Selecting "Yes" will automatically open the selected encounter.

NOTE: There is the ability to document on any encounter

Be careful to document on the correct encounter!!!

Advanced Growth Chart

The growth chart will open automatically to default settings.

- Information is populated to this screen from data entered in chart
- This chart is sex and age (Birth 20 years) specific.
- Growth charts for females display in red
- Growth charts for males will display in blue.
- CDC (Center for Disease Control) and WHO (World Health Organization) charts are both available
