

Professional Consult Orders

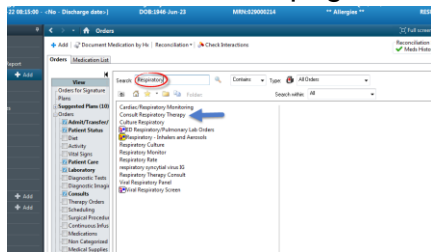

All consults must be entered in the chart to provide a record of the Consult

Physician to Physician Consults require: A Personal contact or phone call to the physician being consulted

- Most physicians do not have a list generated by CIS for consult orders
- A phone call is required
- The consult order provides easily accessible information for the consultant
- The consult order is a record of the intention to consult, but without the correct process of a phone call, the consultant is not likely to respond

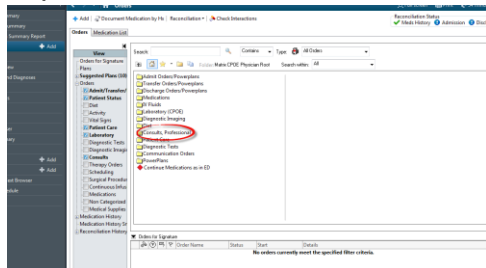

TO Order/Request a service:

- Go to the orders page
- Click **“ADD”**
- On the **“Add Order”** page, use the search field

OR

- Open the **“Consults, Professional”** folder

- This provides a list of all services that may be electronically consulted
