

I & O - Physicians

Intake and Output Tab

This tab allows the provider to view the intake and output of the patient.

- It defaults to 12hr shift. You can view the 24hr total.
- Information also flows from various powerforms.
- Charting components that populate are individualized to patient requirements ie. Drains and chest tubes would only appear if your patient has these tubes.

Intake And Output					
2015-Apr-20 08:00 - 2015-Apr-23 07:59					
Today's Intake: 800 mL Output: 375 mL Balance: 425 mL Yesterday's Intake: 0 mL Out					
	2015-Apr-21	24 Hour Total	2015-Apr-20	20:00 - 07:59	08:00 - 19:59
