# Women's Health Delivery Documentation Workflow

All delivery (Vaginal/Cesarean) documentation will now be completed using iVIEW. On the Menu select "I/O / iVIEW". Document applicable assessments in the "Provider Delivery Documentation".

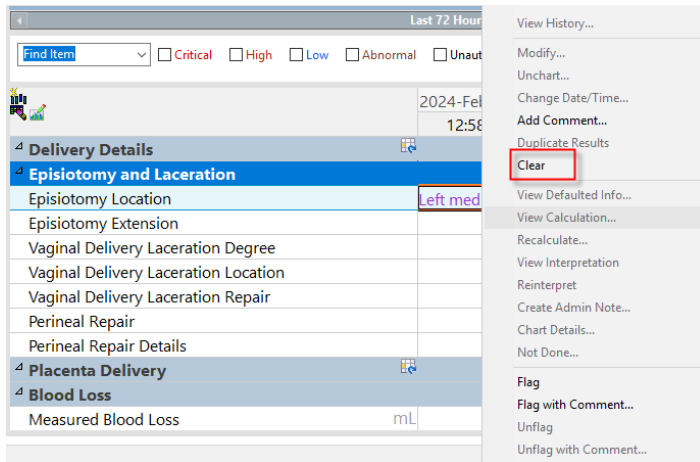

To change the date and time to the correct time of delivery click on the birthday candle icon and a box will populate with date and time. Make appropriate changes.

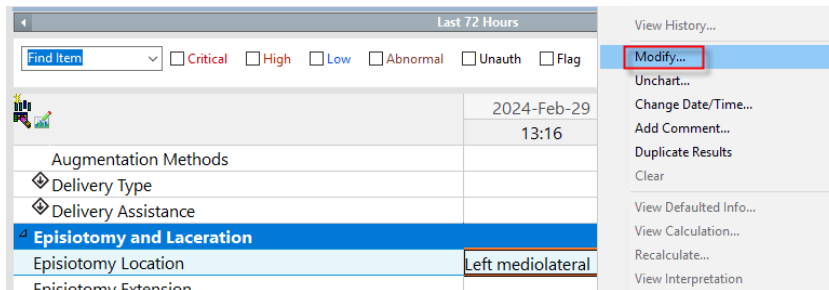

From the appropriate time column document in the applicable fields by clicking in the box. Note: not all fields have to include documentation. Example if episiotomy is not performed leave field blank. This icon, ◈ indicates additional documentation is available.
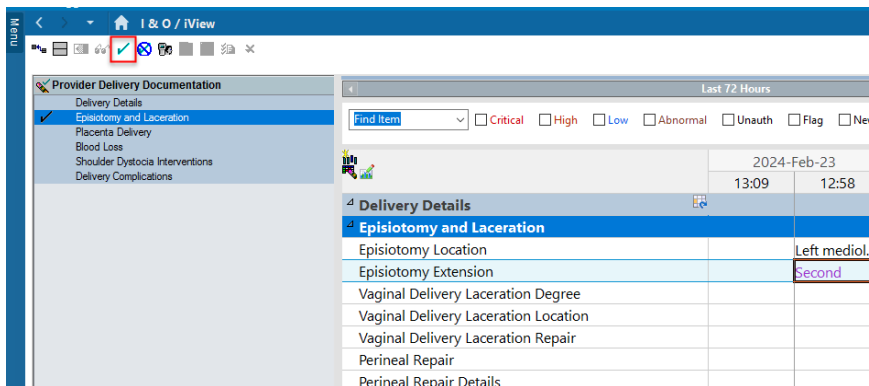

If documentation changes are required prior to signing, the writer can right click and select clear.

Documentation errors can be modified by right clicking and selecting modify.

To sign locate the ✔ in the top left and click it.

NOTE: The documentation completed in iVIEW first, will auto populate to the "OB Delivery" Dyn Doc.
