2. Click OK to open the PowerNote template.

Creating a New Note if the Reason for Visit does not populate

- 1. In the patient's chart, click the PowerNote Ed tab to open the Open Note dialog box.
- Enter the Reason for Visit in the Search field (be sure you are on the Reason for Visit tab). Once the Reason for Visit has been located double-click the term to add it to the Scratch Pad. Or

Click on the PNED RFV tree to locate appropriate RFV.
