

Health PEI

All Hazards Plan Levels of Response

The CEO or designate can activate the Health PEI *All Hazards Plan* based on the following response levels.

RESPONSE LEVEL	CHARACTERISTICS OF THE EVENT	RESPONSE
Normal: Operational Monitoring	No specified threat or event.	Health PEI monitors operations for threats and events daily.
Level 1: Targeted Monitoring	<p>A threat or event may impact or is impacting a Health PEI facility, service, the broader health system or the province but does not require direct intervention of Health PEI executive leadership. Examples:</p> <ul style="list-style-type: none"> • Impacts/severity of an event are uncertain, need more information • Lead up to severe weather or other anticipated events • Event external to Health PEI (i.e., in the community) 	<p>Gather information to inform and determine if need to escalate response level.</p> <ul style="list-style-type: none"> • Monitor through third party sources and/or targeted requests for information • May only require activation of a few resources/team members. E.g. Emergency Operations Centre (EOC), Director, Planning, Ops, Comms, etc. • May need to develop information management objectives and/or a plan
Level 2: Enhanced Monitoring, Planning and/or Limited Response	<p>An event is impacting or has the potential to impact Health PEI facilities, services, the broader health system or the province. The event is being managed at the facility/service level. The event may require a limited operational response. Examples:</p> <ul style="list-style-type: none"> • During or immediately after severe weather • Event impacting/isolated to one facility (e.g., minor fire) 	<p>Focus on allowing facilities/services manage their response with guidance from Health PEI executive leadership, EOC, as needed.</p> <ul style="list-style-type: none"> • Proactively collect and manage information from facility/service and/or external agencies and provide to leadership/EOC as required • May need to: <ul style="list-style-type: none"> ○ respond to regular requests for information; develop and distribute situation reports; and/or, develop an EOC Action Plan including *PPOST ○ provide organizational directives, resources and other forms of support
Level 3: Emergency Response	<p>An event that involves one or more Health PEI facilities or services requires an extensive response from the Health PEI Executive Leadership Team/EOC. Response may include planning support, setting priorities, info management, providing direction, resource management (including staffing), coordination of activities and/or services, etc. Examples:</p> <ul style="list-style-type: none"> • Total facility evacuation • Pandemic • Weather events with widespread impacts 	<p>Leadership/EOC team may need to provide extensive support and lead overall response beyond regular business hours over multiple days</p> <ul style="list-style-type: none"> • May require the constitution of an EOC <p>Response will likely require:</p> <ul style="list-style-type: none"> • Acquiring new resources or redeploying current resources • Providing organizational directives • Extensively altering day-to-day operations • Developing and executing an EOC Action Plan including operational and comms PPOST
