

Health PEI

JUST CULTURE WEEK

June 3-8, 2024

Health PEI is excited to be holding their first Just Culture Week from June 3-8, 2024!

WHAT IS JUST CULTURE?

Just Culture refers to a system of shared accountability in which **Health PEI** is accountable for the system designed, and for responding to the behaviors of all healthcare workers in a fair and just manner.

Healthcare workers are accountable for their choices, and for reporting system errors.

The goal is to create a safe and transparent environment that encourages the reporting of hazards to improve the system and the environment in which we work every day.

Staff have the opportunity to **drop-in** and watch a **20-minute training video** facilitated by the **Just Culture Champions** provided by **The Just Culture Company**—there will also be an opportunity for those that drop in to **win door prizes!**

Don't forget to check the calendar for the drop-in session at your site and meet your Just Culture Champions!
