One Island Health System

## Immunology Testing Delays

February 2, 2021

*This information applies to: Island Physicians and Nurse Practitioners*

Please be advised there has been disruption in our ability to offer the following tests due to instrument malfunction:

- Vasculitis panel + anti-GBM
- ANA panel including anti-mitochondrial antibody
- anti-Gliadin (IgG)
- anti-cardiolipin
- Fecal calprotectin
- Allergies testing (IgE)
- anti-TTG (IgA)
- anti-CCP
- Farmer's Lung

There is no available instrument backup on the island and we are working diligently to resolve this issue and address the sample backlog. If you are urgently waiting for results from the above listed tests please phone or email Clinical Chemist.

*For more information, contact:*
