

MEDICAL CANNABIS MEDICATION TRACKER

NAME _____

DOB _____

PHN _____

DID YOU KNOW?

Medical Cannabis has two main components that help with symptoms:

THC AND CBD

Each of these components can help with specific symptoms:

THC	CBD
Anxiety	Anti Inflammation
Sleep	Pain
Appetite	Anxiety
Nausea	Seizures
Pain	Nausea

THC in higher doses can be responsible for so called “psychotropic effects” or feeling “stoned”. Adding CBD to the mix helps to minimize that effect.

DID YOU KNOW?

Medical Cannabis can be vaped (preferable to being smoked), but can also be taken as an oil or edibles. The oil takes a little longer to start working but has the benefit of lasting much longer... 8 - 12 hours generally.

DID YOU KNOW?

You should not drive for at least 4 hours from smoking or vaping marijuana or 8 hours after ingesting cannabis oil.
