Follow Up Global Appointment Types Update

Please Note: Due to the high volume of requests for **Follow-Up Appointment Types** based on duration, I have updated the naming conventions to reflect **ONLY the appointment LENGTH**. While the previous labels (SW), (MD), and (NP) indicated different provider types and durations, they should only be used as time indicators.

This means the denomination (SW, MD, NP) no longer matters—appointments will be booked directly under the appropriate provider's schedule, so you can select any time-based option regardless of provider type.

Follow Up Visit (15)	15 Minutes		
Follow Up Visit (20)	20 Minutes		
Follow Up Visit (MD)	20 Minutes		
Follow Up Visit (30)	30 Minutes		
Follow Up Visit (60)	1 Hour		

“Follow Up Visit (MD)” is there for reference, to reflect the previous naming convention.

PAP Smear renamed to HPV Testing

Please note that the Presenting Issue, Encounter Template, and Qnaire "PAP Smear" have been renamed to **"HPV Testing"** to align with the current cervical cancer screening guidelines.
