Steps to Use PowerMic Mobile 4

Provincial EMR/CHR users-use Google Chrome with Dragon DMO:..... 5

To set up your smartphone as a mobile PowerMic, see the user instructions below.

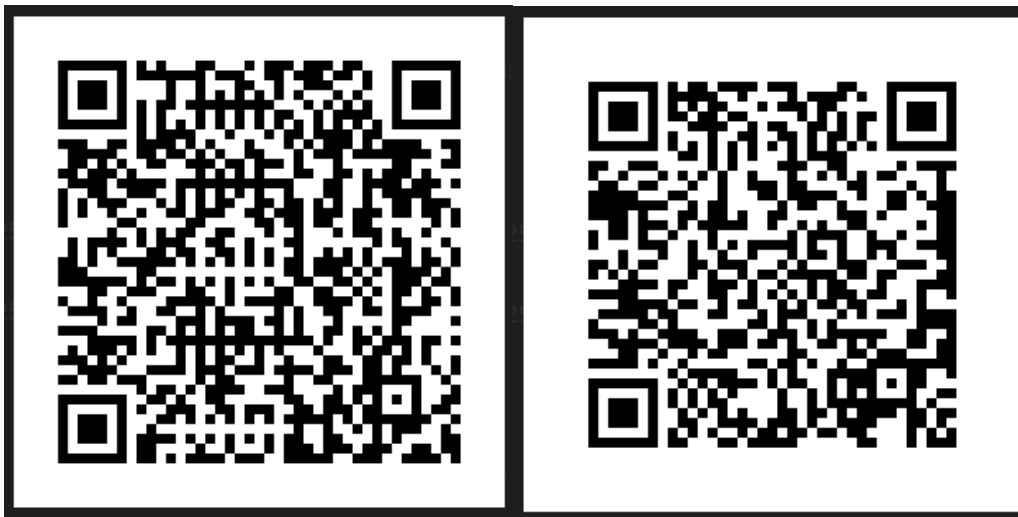

Note: PowerMic Mobile uses Wifi or your phone’s data, though it is recommended you connect to a good Wifi network!

****Your phone must pair with Dragon Medical One (DMO) on a computer to use the PowerMic, no matter which Option you choose below****

PowerMic Mobile App Setup (Option 1)

1. Search for **PowerMic Mobile app** on your smartphone from either the Apple iOS or Android (Google Play) stores.
 - a. Download
2. Choose **'Allow'** when asked about accessing the microphone.
3. On the getting started screen, choose **"GOT IT"** to close the help tutorial (or read it).
4. Open your camera and hover over the **iOS or Android QR code** below or on the DMO login screen. Tap the link that appears on your smartphone screen.
5. You will automatically be redirected to the PowerMic Mobile App. Notice that the **Profile** field has been filled with **'Profile 1'**. To customize your profile click on the word **'Profile'** in the upper left-hand corner. You may want two profiles if you use Dragon DMO in other organizations.
6. Enter your username (Dragon Medical One PEI login name) that was issued to you when your account was created.
7. The PowerMic app will begin **"Searching for computers"**. Ensure you have the Dragon Medical One (DMO) app open on your computer, and that you are logged into DMO and have selected the "Nuance PowerMic Mobile" microphone. You may need to check if your computer is 'findable' by checking if your Bluetooth is on.
8. Follow the section below "Steps to Use PowerMic Mobile"

PowerMic Mobile App Setup (Option 2)

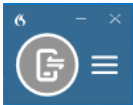

1. Search for **PowerMic Mobile app** on your smartphone from either the Apple iOS or Android (Google Play) stores.
 - a. Download
2. Choose allow when asked about accessing the microphone.
3. On the getting started screen, choose “GOT IT” to close the help tutorial.
4. On the main screen, choose **+Add Profile**
5. In the **PROFILE URL** field, put the appropriate link based on your mobile device
Suggestion: copy an URL into an email or text message and send to yourself.
Ensure no additional spaces are added!
 - a. **Apple iOS**
 - i. dmic://config_/?NmsToken=NTU2RjhCMDMtNTQwNy00OENFLUJFMEUtM0Y2QkJERDhBMTk4&NmsBaseUrl=nms-ca.nuancehdp.com
 - b. **Android**
 - i. http://config_/?NmsToken=NTU2RjhCMDMtNTQwNy00OENFLUJFMEUtM0Y2QkJERDhBMTk4&NmsBaseUrl=nms-ca.nuancehdp.com
 - c. After you enter the URL, you should see **Valid Profile** appear in green
6. In the **PROFILE NAME** field, enter your first name and PEI (ex: Jess PEI)
7. Choose SAVE
8. The PowerMic app will begin “**Searching for computers**”. Ensure you have the Dragon Medical One (DMO) app open on your computer, and that you are logged into DMO and choose the “Nuance PowerMic Mobile” microphone. You may need to check if your computer is ‘findable’ by checking if your Bluetooth is on.
9. Follow the section below “Steps to Use PowerMic Mobile”

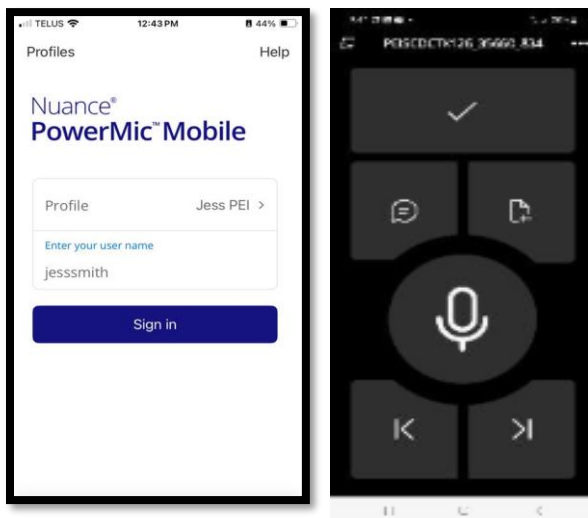

Steps to Use PowerMic Mobile

To use PowerMic Mobile, please follow these steps:

1. Launch the Dragon Medical One (DMO) application on the computer or via the CIS + DMO shortcuts (ex: PowerChart DMO icon in CIS folder) 
2. On the login screen enter the Dragon DMO username you were given, and you'll need to choose Microphone: Nuance PowerMic Mobile, then click OK
3. The application will show a cellphone icon indicating that the PowerMic mobile app on your phone needs to be paired

4. On your phone click on the Nuance PowerMic Mobile app
5. Using the same profile you setup earlier (ex: John PEI), you will need to sign in with the same username (provided by Health PEI) as on the computer

Your Dragon DMO and computer now will use your smartphone as your mic.

- In the top right hand corner on the smartphone PowerMic Mobile app you can click on the ellipses (...) to access **Help**.

- On your computer Dragon DMO icon you can click on the three lines ('hamburger menu') to access Dragon DMO training videos click on 'Training' or review 'What You Can Say' and use 'Options' to manage your microphone settings. Or simply dictate "training" or "what you can say"

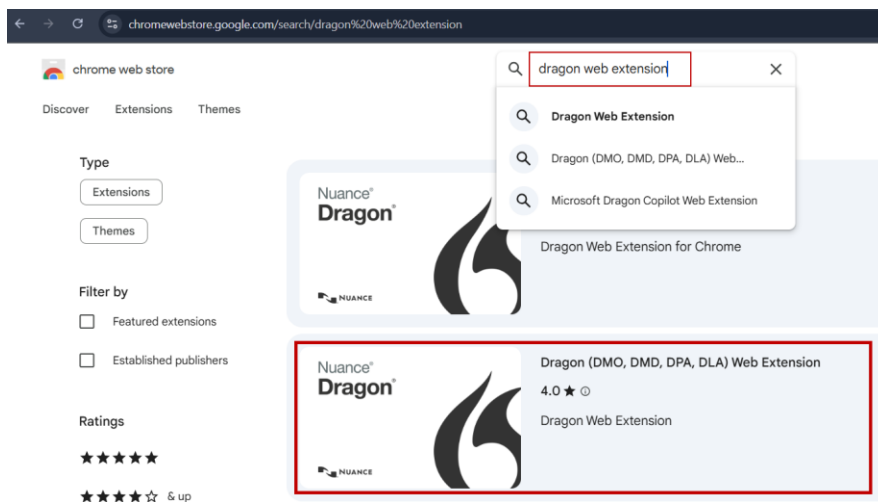

Provincial EMR/CHR users-use Google Chrome with Dragon DMO:

Users of the Provincial EMR might need to install an extension manually in Google Chrome before Dragon DMO will dictate properly. Newer software requests are including this automatically.

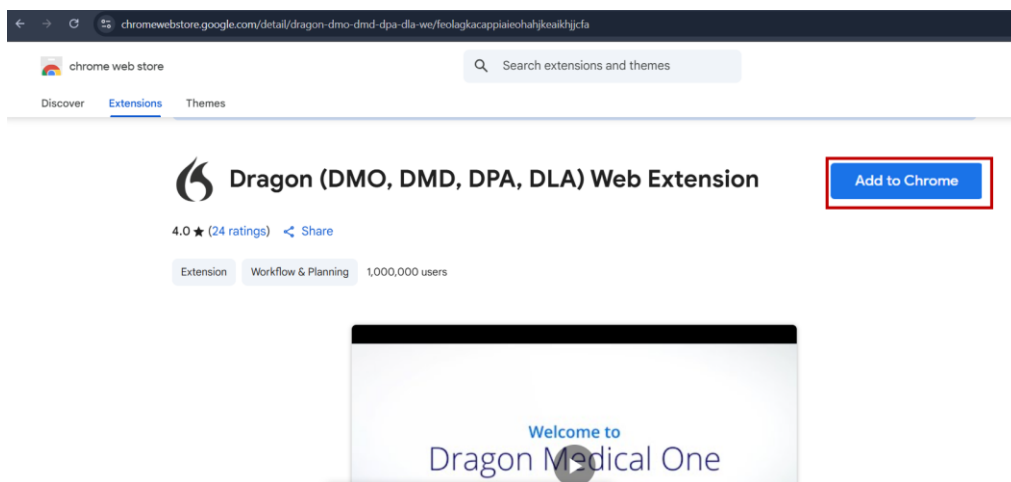

Check your Chrome extensions in your Google browser: click on the puzzle piece icon on the top right to look at your extensions. Look for  'Dragon (DMO, DMD, DPA...)'

If no extension is found:

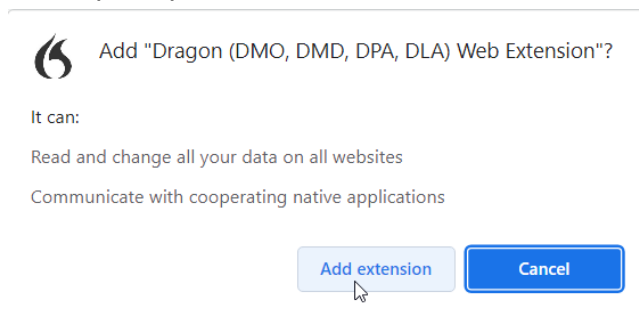

1. Go to the Chrome extensions site at:
<https://chrome.google.com/webstore/category/extensions>
2. In the top search bar, search for **dragon web extension**

3. Click on the item named **Dragon (DMO, DMD, DPA, DLA) Web Extension**, then on the next screen, click on **Add to Chrome**

4. When prompted, choose Add Extension

You are now ready to dictate. Always use Chrome in the Provincial EMR/CHR for best results.
