

## Research/Ethics

Research and ethics are a very important part of the Accreditation Canada Standards.

When the surveyors from Accreditation Canada Visit our facility (September 25-29, 2017) they may be asking questions about research and ethics. Did you know that all research proposals must go through the research/ethics board at Health PEI?

We also have a provincial Clinical Ethics Committee. This committee offers consultation on ethical dilemmas, and provides education and standards relating to ethics to our provincial health system.

If you have any questions or concerns please contact your manager.
