

Surveyors Visit

While surveyors from Accreditation Canada are visiting our sites on (September 25 - 29th, 2017), they will be talking to staff/physicians/volunteers about their daily work.

Any employee/physician/volunteer in the health system may be asked to participate in the onsite survey and other accreditation activities.

Please share your thoughts and knowledge with Accreditation Surveyors when they visit our sites. It is through these processes that we improve our quality for our patients, families and staff.

If you have any questions or concerns please contact a member of the Quality Team.
