- The first time you use SurgiNet you will be prompted to select a Surgical Area.
- Each subsequent time you enter the application; the most recent Surgical Area used will default in. (Note: If you need to change surgical areas, click on the location tab at the top of the screen.)

| Location Selection | | | |
|--|--------------------|------|--------|
| | Area Selection | | |

| (⊕-100) Sungcal Ser ⊕ 100) Sungcal Su | vices PCH e QEH | | |
| Start Location: | | OK C | Cancel |
| 1100 | | | Gunod |

- A "Case Selection" window then appears and shows all of the procedures that are scheduled for that day.
- The system will default to today's date.

Changing the date:

To change the date one day at a time, click the small double button to the immediate right of the date field. The top button is to move forward and the bottom button moves back in time.

To change to a distant date, click the upside down triangle to view the calendar. From there, click the correct date or use the < or > to change the months.

Now click RETRIEVE and a list of patients will appear for the date you selected.
