

MAR Tab

Medication Administration Record (MAR) is the tab where administration of all medications are documented.

The MAR is only viewable to clinicians who document medications in their scope of practice.

Request a medication dose

Select your reason for requesting the medication and any comments. Then click submit.

The screenshot displays a medical software interface for a patient named TRAINING, WH2. The patient's details include Age: 79 years, Sex: Male, and DOB: 1943-Oct-05. A 'Medication Request' dialog box is open, showing the medication 'hydrocortisone 0.5% topical cream' with a quantity of 1 application. The dialog includes a 'Reason' dropdown menu set to 'Refill Request', a 'Priority' section with radio buttons for 'Low - Needed before end of day', 'Medium - Needed within 2 hours', and 'High - Call Pharmacy', and a 'Comment' field containing 'Next dose due June 2 at 2100'. A red arrow points to the 'Submit' button. The background shows a medication schedule with columns for dates and times, and a list of medications including ceftriaxone, metformin, magnesium, cyanocobalamin, and levothyroxine.
