

## RFV Not Populating to the PowerNote

If the RFV is not populating to the Power Note

1. Check to ensure your search window is set to Subset – PowerNote ED
2. On the Diagnosis window check to ensure the Clinical Service is defaulted to Emergency Medicine

To set this default :

- Click on the delta by Clinical Service

The screenshot shows a form with several fields. The \*Diagnosis field contains 'Abdominal pain'. The \*Clinical Service dropdown menu is open, showing 'Non-Specified' as the selected option. A red box highlights the dropdown menu, and a red arrow points to the 'Open Delta' button. Other fields include \*Type (Reason For Visit), \*Confirmation (Confirmed), \*Classification (Medical), and \*Date (2018-May-24).

- Select More

The screenshot shows the \*Clinical Service dropdown menu with 'Non-Specified' selected. A red arrow points to the 'More...' option at the bottom of the list. A green box labeled 'Select "More"' is positioned over the 'More...' option.

- Choose Emergency Medicine

The screenshot shows the \*Clinical Service dropdown menu with 'Emergency medicine' selected. A red arrow points to the 'Emergency medicine' option. A green box labeled 'Select Emergency Medicine' is positioned over the 'Emergency medicine' option. The list of options includes: Colorectal surgery, Dental surgery, Dermatologic surgery, Dermatology, Dialysis unit, Endocrine surgery, Endocrinology, Facial plastic \_reconstru, Family medicine, Forensic psychiatry, Gastroenerology, Gastrointestinal surgery, General dental surgery, General gastrointestina, General medicine, General pathology, and General surgery.
