Important PEI OH&S Regulations regarding Fall Protection:

2. Employer required to provide means of fall protection

(1) Where a worker is exposed to the hazard of falling from a work area that is (a) 3 m or more above the nearest safe surface or water; (b) above a surface or thing that could cause injury to the worker if the worker were to fall on the surface or thing; or (c) above an open tank, pit or vat containing hazardous material

2.1 Required training in use of a means of fall protection

(1) Where, in accordance with subsection 2(1) or (4), an employer of a worker provides the worker with a means of fall protection for use at a work area, the employer shall ensure the worker is trained in the use of the means of fall protection by a competent person and that the training includes (a) training in the use, care and inspection of the means of fall protection; and (b) a review of the provisions of these regulations that apply to the means of fall protection
